Notes

The county designations are for purposes of assessing access to Network Providers (excluding pharmacies). The designations build upon CMS Medicare Advantage (MA) designations. The table above lists the population and density parameters applied to county type designations. A county must meet both thresholds for inclusion in a given designation. In order to facilitate monitoring, HHSC has combined the Large Metro and Metro MA categories into one category for Metro. The categories for Counties with Extreme Access Considerations (CEAC) and Rural counties have been combined to create the Rural category.
